intimate diary and discussed not only in terms of their content but also in the context of their creative design or the pleasures to be had from holding and examining them he was quick to notice how many of these fine books had a simple design combination of black text on a white background this observation is why 61 books with black type on white cover came into being as an analog selection from the website each book here is presented with the cover a bibliography and a short text anecdote or even a quotation to initiate discussion much care effort and affection was lavished on compiling and designing a reader this is an anthology which of course also references the black and white thematic focus 61 books with black type on white cover is available in two sizes a small reader in paperback format or as a large display volume with the covers in the original dimensions

type popular in europe at that time memphis the ibm logo is one of the most famous slab serif marks the serifs were often exaggerated so they would not result in simply beautiful letterforms but would be functionally superior to other faces slabs therefore came in many iterations and were eventually recognized as a face with many characters and nationalities following the cult typography volumes scripts shadow type and stencil type this new volume comprises an artfully curated selection of hundreds of international and classic examples to inspire fresh and unexpected typographic ideas
