Welcome to Steel City 2021-03-18

during the mid 1980 s pittsburgh pa lost half of its population when the steel industry collapsed subsequently a new industry was born the drug trade this trade unlike its predecessor would stand the test of time many young black men rose to prominence in this industry but one stood out amongst them welcome to steel city is a coming of age tale about jabar body jones the story takes you through his journey as he experiences the trials and tribulations of growing up on the gritty streets of pittsburgh along for the ride is his right hand man psycho who is known for making reckless decisions while body is smart he finds himself learning hard lessons due to the mistakes of others although he is living and thriving in a grown man s world he is just a boy trying to find his way while figuring out his place in life he meets mila a beautiful latina with mutual aspirations she introduces body to a deeper side of the game and he becomes more intrigued with her and the life he garners success that comes with plenty of jealousy and envy and his ability to recognize his enemies is a matter of life and death follow body on his journey as he welcomes you to steel city

ABC of Iron and Steel 1917

set in the year 2275 one hundred years after a fail attempt for independents by the colonies on mars anna a local cop on mars has the unexplainable ability to control any type of known metals with no memories of her own past anna unintentionally discovers that she is not alone when she faced off with sara who has the same abilities just like anna sara realized that the keys to understanding their existence locked inside each other s past in order for them to survive and solve this riddle they must learn to trust each other by accepting their fate both women are now running from the earth s government and the corporation with a great interest in their kind in their way lies another like themselves and she s not willing to be friends her name is nakita and what she knows about them she will keep to her grave her hatred for the two will set mars on fire born of flesh baptized in steel we are what lies beyond the next stages of human evolution welcome to living metal welcome to the rebirth
