david zeisberger a life among the indians offers the unique perspective of a moravian missionary who lived and worked for sixty three years among the iroquois and delaware nations in new york pennsylvania ohio michigan and upper canada earl p olmstead s narrative draws on thousands of pages of zeisberger s own diaries some of which are translated here for the first

time the diaries offer insights into the role of wampum in tribal government problems resulting from the mass euro american western migration and incidents of duplicity on the parts of both the american government and native american nations of particular interest are zeisberger s descriptions of native american life in the years surrounding the french and indian war and the american revolution and the effects of these conflicts on the nations that lived in ohio country

in the second half of the eighteenth century celebrated swiss physician samuel auguste tissot 1728 1797 received over 1 200 medical consultation letters from across europe and beyond written by individuals seeking respite from a range of ailments these letters offer valuable insight into the nature of physical suffering plaintive desperate querulous fearful frustrated and sometimes arrogant and self interested in tone the letters to tissot not only express the struggle of individuals to understand the body and its workings but also reveal the close connections between embodiment and politics through the process of writing letters to describe their ailments the correspondents created textual versions of themselves articulating identities shaped by their physical experiences using these identities and experiences as examples sonja boon argues that the complaints voiced in the letters were intimately linked to broader social and political discourses of citizenship in the late eighteenth century a period beset with concerns about depopulation moral depravity and corporeal excess and organized around intricate rules of propriety contributing to the fields of literary criticism history gender and sexuality studies and history of medicine telling the flesh establishes a compelling argument about the connections between health politics and identity

## **The Correspondence of Edmund Burke, Volume X**

1978-03

from the fall of cahokia in the early fourteenth century to the ascendancy of the young united states in the early nineteenth century jacob lee reinterprets the history of early north america by tracing the key role major midcontinental rivers and social networks played in linking indian nations and european empires in a long shared history of conquest and resistance long before europeans set foot on the shores of north america siouan peoples from the great plains algonquians from the great lakes and muskhogean from the south traded with and fought each other in the heart of the midcontinent starting in the early 1600s the illinois became the dominant power in the region constructing a network of allies that stretched from lake superior to arkansas they were at the height of their power in 1673 when the first french explorers jolliet and marquette appeared in the region between the seventeenth and nineteenth centuries the major empires in north american history france britain spain and the us claimed part or all of the region when americans came on the scene and began to remake the midcontinent they overturned the patterns of 150 years of interaction between indians and europeans
