## **Operator's Manual 1978**

this manual has been produced for students undertaking their basic helicopter training it concentrates on explaining not only how and why the helicopter flies but also on the correct handling techniques needed to master the flying exercises required to obtain a helicopter pilot s licence the simplified text together with an abundance of diagrams will greatly assist the student to become a better and safer helicopter pilot this is a revised and updated new edition for 2007 a manual for students undertaking their basic helicopter training covering principles of flight and helicopter handling illustrations throughout

## ***Operator's Manual 1989***

technical manual for applicants who are preparing for their private commercial or flight instructor pilot certificates with a helicopter rating also could be aid in training students contains detailed coverage of helicopter aerodynamics performance and flight performance includes items such as weather navigation radio navigation and communications 81 charts and tables
