if the trader could only find that one special thing then their accounts could achieve amazing returns some call this special thing the holy grail others say there is no such thing as the holy grail others say they have a special robot or indicator or system or methodology or pattern or a myriad of other things that although aren't the holy grail at least contain keys to the holy grail and if only they could find the right combination of these special keys then their life would be set for themselves and for generations to come most traders or wannabe traders have purchased several dozen books and have their computer monitors filled with fancy lines charts graphs vivid colors flashing and beeping signals in addition to periodicals newspapers website favorites television news channels mobile telephone apps and a plethora of other doodads to keep them up to date and educated and informed as to their portfolio performance other traders who think they're serious and want to impress their friends and family have the latest computers with multiple duplexed computer monitors with the absolute fastest processors and video cards and lightning fast internet connections with the thought that one millisecond of delay will make them miss the boat on their whiz bang special key to the holy grail of promised and back tested trading riches well if you are looking for another book that will help promote any of these above ideas you definitely have the wrong book in your hands right now i have been down that path for over 20 years and i am here to tell you right here and right now that dog won't hunt you are wasting your time your precious resources and capital and feeding the monster that the financial media has created and designed to perform that task they are masters at their game and you have been a loyal puppet to the puppet masters what you have in your hands right here and right now will change the way you look at trading investing for the rest of your life i guarantee it with this book your trading profits will soar your stress level will become non-existent annualized double digit returns will become monthly double digit returns with much lower risk than you ever thought possible with no need for all of the fancy stuff what i will introduce you to in this book is how to change your paradigm about trading and investing and by doing so your trading profits will soar you will find out that everything you thought you knew was really what you were taught to learn rather than what was a real way to make money from the financial markets who do you think taught you these things other than the very people companies that were intentionally conceived to methodically strip you of your precious trading capital if after reading this book if you do not 100% believe within your heart of hearts that i have tapped into the actual holy grail of trading then i will gladly refund 100% of your purchase price for this precious piece of information that you have in your hands right this moment i will show you without a shadow of doubt that my method of thinking and trading will improve your bottom line performance and enhance your portfolio if it doesn't then simply ask for a full refund and it will be granted no questions asked i know without a shadow of a doubt that this method has worked will work and will always work because it has to work there are basic business principles that will always work no matter what did you hear that they work no matter what

the medieval legend of the grail a tale about the search for supreme mystical experience has never ceased to intrigue writers and scholars by its wildly variegated forms the settings have ranged from britain to the punjab to the temple of zeus at dodona the grail itself has been described as the chalice used by christ at the last supper a stone with miraculous youth preserving virtues a

vessel containing a man's head swimming in blood the grail has been kept in a castle by a beautiful damsel seen floating through the air in arthur's palace and used as a talisman in the east to distinguish the chaste from the unchaste in his classic exploration of the obscurities and contradictions in the major versions of this legend roger sherman loomis shows how the grail once a celtic vessel of plenty evolved into the christian grail with miraculous powers loomis bases his argument on historical examples involving the major motifs and characters in the legends beginning with the arthurian legend recounted in the 1180 french poem by chrstien de troyes the principal texts fall into two classes those that relate the adventures of the knights in king arthur's time and those that account for the grail's removal from the holy land to britain written with verve and wit loomis's book builds suspense as he proceeds from one puzzle to the next in revealing the meaning behind the grail and its legends
