this comprehensive exploration of curiosity in the fiction and life writing of andré gide 1869 1951 is an important modernist contribution to the field of curiosity in literature and cultural studies more broadly curiosity was a credo for gide by observing the world and then manifesting in writing these observations he stimulates the curiosity of readers conceived as virtual conduits of a curiosity once his own using a thematic structure of sexual scientific and writerly curiosity this volume identifies processes of curiosity in the life writing including the travel writing which illuminate processes in the fiction and vice versa theories of fetishism gender and sexuality are applied to gide s corpus to illustrate his championing of a masculine

curiosity of enlightenment and adventure over a feminised curiosité  
défaillance of disobedience and harm and to explore objects eliciting  
his incuriosity gide s creativity is nourished by his curiosity as  
close readings of his work informed by melanie klein s psychoanalytic  
writing on epistemophilia reveal curiosity is a rewarding non  
reductionist perspective from which the exceptional variety of gide s  
subject matter style and genre can be more coherently understood  
research draws principally on the six pléiade volumes of gide s œuvre  
published 1996 2009
