The Financial Crisis Inquiry Report, Authorized Edition

2011-01-27

The definitive report on what caused America's economic meltdown and who was responsible. The financial and economic crisis has touched the lives of millions of Americans who have lost their jobs and their homes but many have little understanding of how it happened. Now in this very accessible report, readers can get the facts. Formed in May 2009, the Financial Crisis Inquiry Commission (FCIC) is a panel of 10 commissioners with experience in business regulations, economics, and housing, chosen by Congress to explain what happened and why it happened. This panel has had subpoena power that enabled them to interview people and examine documents that no reporter had access to. The FCIC has reviewed millions of pages of documents and interviewed more than 600 leaders, experts, and participants in the financial markets and government regulatory agencies, as well as individuals and businesses affected by the crisis. In the tradition of the 9/11 Commission Report, the Financial Crisis Inquiry Report will be a comprehensive book for the lay reader, complete with a glossary, charts, and easy-to-read diagrams, and a timeline that includes important events. It will be read by policy makers, corporate executives, regulators, government agencies, and the American people.

Compounded Topical Pain Creams

2020-07-21

Pain is both a symptom and a disease. It manifests in multiple forms, and its treatment is complex. Physical, social, economic, and emotional consequences of pain can impair an individual's overall health, well-being, productivity, and relationships in myriad ways. The impact of pain at a population level is vast, and while estimates differ, the Centers for Disease Control and Prevention reported that 50 million U.S. adults are living in pain. In terms of pain's global impact, estimates suggest the problem affects approximately 1 in 5 adults across the world, with nearly 1 in 10 adults newly diagnosed with chronic pain each year. In recent years, the issues surrounding the complexity of pain management have contributed to increased demand for alternative strategies for treating pain. One such strategy is to expand use of topical pain medications—medications applied to intact skin. This nonoral route of administration for pain medication has the potential benefit in theory of local activity and fewer systemic side effects. Compounding is an age-old pharmaceutical practice of combining, mixing, or adjusting ingredients to create a tailored medication to meet the needs of a patient. The aim of compounding historically has been to provide patients with access to therapeutic alternatives that are safe and effective, especially for people with clinical needs that cannot otherwise be met by commercially available FDA-approved drugs. Compounded topical pain creams explore issues regarding the safety and effectiveness of the ingredients in these pain creams. This report analyzes the available scientific data relating to the ingredients used in compounded topical pain creams and offers recommendations regarding the treatment of patients.

the tenth karmapa 1604 1674 lived through dramatic changes in tibet including the rise to
political supremacy of the fifth dalai lama and the gelug sect following a mongol invasion
regarded as a remarkable bodhisattva and artist the karmapa has largely escaped the close
attention of modern scholars in this book shamar rinpoche the fourteenth shamarpa introduces
the tenth karmapa through his translations of the karmapa s autobiographical writings and an
eighteenth century biography of him as a direct lineage descendant from the sixth shamarpa
the karmapa s guru the shamar rinpoche shares his unique knowledge and experience through
extensive annotations and a historical overview of tibet from the thirteenth through seventeenth
century the text of a golden swan in turbulent waters the life and times of the tenth karmapa
choying dorje is complemented by maps and color illustrations depicting places where the
karmapa lived and his prolific artistic work with some object images being published for the first
time
