in this partnership between so called equals which can be compared to a polyandrous marriage the supreme court is the woman and parliament and the executive her two husbands one more loutish than the other depending on your point of view in the nirbhaya case too the gap between theory and law has been highlighted following the terrible episode and even before there has been continual and great improvement in the substantive laws for both women as well as children who have been victims of sexual violence and yet despite their being so much publicity on the case the author argues that concretely although there has been improvement in the laws themselves we are nowhere near better enforcement or implementation even after the institution of a fast track trial and with the nation's attention focused on it the nirbhaya case still dragged on and it took more than nine months for the trial court to reach a verdict and as the author explains there are still potentially further delays waiting at the level of the superior courts the high court certainly and the supreme court too quite possibly as the author goes on to show in this well argued book a woman who is the victim of a sex related crime courts injustice whenever she comes to a court be she the victim of a rape an acid attack of sexual harassment the mother or father of such a victim or be it even any ordinary person struggling to find justice our courts particularly the supreme court is performing the function of a nagging wife time and again she pulls up the lazy good for nothing husbands read failure of

governance and what does either husband do he goes for a walk ignoring the wife's anguished screams even as they follow him if she complains too much he tells himself he'll see to it that she doesn't get the silk sari and other goodies she wants read promotions post retirement assignments etc it is only one of the ways he ensures that she doesn't step too much out of line all wives nag he consoles himself nagging here and there is tolerable but she must make sure that he gets his meals on time read doesn't bar him from contesting elections even if there are a dozen or more criminal cases pending against him meanwhile the overzealous wife doesn't realize that while she rails and rants against the erring ways of her husband the dishes are piling up in the kitchen and the maid has gone away for six months and the dishes they are piling up read the arrears are accumulating the time has come it cannot continue to remain business as usual there will be justice for nirbhaya our brave heart will also bring justice and relief to all her sisters and possibly even to the rest of us

english lexicography and linguistics have always shared close ties yet the potential of cognitive linguistics for lexicography has only been hesitantly acknowledged in the literature this is what cognitive lexicography attempts to change by using insights gained in cognitive semantic research for the development of new dictionary features after a short survey of the history and practice of english monolingual learner lexicography as well as an outline of the relationship between linguistics and lexicography three new dictionary features are developed they cover three different cognitive semantic theories as well as three different parts of the monolingual dictionary entry each time for a new set of lexemes frame semantics conceptual metaphor theory as well as cognitive conceptions of polysemy are used to create a new example section for agentive nouns a new defining structure for emotion terms and a new microstructural arrangement for particle entries dictionary analyses on all as well as user studies on two of the features complement these suggestions the monograph thus presents a new approach to lexicography that incorporates into its description of lexical items how humans perceive and conceptualise language
