the 2015 rugby world cup in england is set to be the biggest brightest and most successful tournament to date as the world s top teams compete for the coveted webb ellis cup and inspire new participants and fans worldwide across 44 days and 48 matches with over three million tickets set to be sold for the matches the rugby world cup will be viewed in over 207 territories worldwide however for all the fanfare of the third biggest sporting event in the world after the olympics and fifa world cup

it is astonishing that until now there has been no single reference book in the marketplace that contains all the rugby internationals in chronological order played by the world's major rugby nations since the game's inception. Keith Young has spent six years compiling such a compendium to fill this gap in the market and has undertaken a colossal amount of research in the process. The complete rugby union compendium contains over 5 200 entries organized in such a way that details of all matches can be easily accessed by the reader. It is laid out in a visually engaging and informative format and will be invaluable to every dedicated rugby enthusiast.

This book presents review papers and research articles focusing on the 2008 Wenchuan earthquake in Sichuan, China, discussing cross-disciplinary and multiple thematic aspects of modern seismological, geophysical, geological, and stochastic methodology and technology resulting from international and regional earthquake research and disaster mitigation collaborations and written by international authors from multiple institutions and disciplines. It describes methods and techniques in earthquake science based on investigations of the Wenchuan earthquake. It also includes extensive reference lists to aid further research. The book helps both senior researchers and graduate students in earthquake science to broaden their horizons in data analysis, numerical modeling, and structural retrieval for the tectonic, geological, geophysical, and mechanical interpretation of the 2008 M8 Wenchuan earthquake to support a global and regional cooperation for preparedness and the mitigation and management of seismic risk.
